Community and Lifestyle

The home has a dedicated team of professionals who provide care which meets residents' needs. With a focus on supporting residents to live an engaging and interesting life we complement the care of the residents with a vibrant and active lifestyle program. This program incorporates residents' interests and ideas and is reflective of their wishes.

The lifestyle program engages residents in a range of social and leisure aspects that promote well-being. An important component of the support to residents is the dedicated pastoral care team who provide spiritual support. Residents care needs are further supported through a range of allied health support services, including regular visits from physiotherapy, podiatry and speech therapist.
